

SHEEP PLAGUE FOUND IN UTAH

Only Few Isolated Cases, but Officials Take Measures to Eradicate It.

GOVERNMENT AIDS STATE
FEDERAL INSPECTOR AND DR. A. C. YOUNG WRITE TO RAISERS.

With a view to stamping out cases of the "lip and leg disease" among sheep, known technically as necrobacillosis, before it gets a serious start in this state, a meeting of wool growers of Utah will be held in this city about Oct. 4.

A meeting was held Monday by the officers of the Utah State Wool Growers' association, with Dr. A. C. Young, state veterinarian, and Dr. F. E. Murray, government inspector in charge of the local office of the bureau of animal industry. Measures for handling the situation were discussed. Dr. Young and Dr. Murray say that a few cases of the disease have been found among sheep in this state, although the situation is not serious.

Those attending the meeting were Dr. Young, Dr. Murray, E. H. Callister, president; D. C. Stewart, secretary of the Utah Wool Growers' association, and Ross Benion of Vernal, Uinta county. Notices will be sent to all members of the association, instructing them to report to the state veterinarian any cases discovered.

Inspector Writes.

The letter sent to the Wool Growers' association by Dr. Murray, the government inspector, follows:

"Salt Lake City, Sept. 20, 1909.

"The Utah State Wool Growers, City.

"Gentlemen—I desire to inform you that instructions have been received at the local office of the bureau of animal industry not to issue certificates for interstate shipments of sheep if same show symptoms of lip and leg disease.

"Reports have been received from the market centers stating that this disease has been found in a few shipments of Utah sheep. So far the disease indicates only two centers of infection. In view of these facts, I would respectfully recommend that means be provided by this association for a thorough investigation of the extent of the disease and the eradicating of same.

"Very respectfully,

"F. E. MURRAY,

"Inspector in Charge."

Dr. Young's Letter.

Dr. Young's letter follows:

"Salt Lake City, Sept. 20, 1909.

"The Utah State Wool Growers, City.

"Gentlemen—It is an established fact that necrobacillosis (lip and leg disease) exists in this state. If handled immediately and in a proper manner, it can be eradicated. Quarantines will have to be established and treatment applied as indicated.

"Necessary funds and the active immediate co-operation of all sheepmen must be had to control the situation and insure future integrity.

"A. C. YOUNG,

"State Veterinarian."

MAUSS LANDS DESERTER

Murray Marshal Turns Prisoner Over to the Army Post and Claims the Reward.

Marshal Mike Mauss, chief of the Murray constabulary, yesterday captured a deserter from the Twenty-fourth infantry. The man's true name is Pretzke, but while in Murray he went under the name of Joe Adanok. Adanok had been in the smelter city for the last two weeks, and it was Friday that Mauss was notified that

Pretzke was receiving mail at Murray. While walking down State street yesterday morning Mauss noticed a man who was wearing the latest make of clothes standing near the postoffice. He thought that the man answered the description. Shortly afterward the man entered the office and bought a money order which he sent east. The man denied his identity, but when more proof was brought forward he confessed. He said he left the Twenty-fourth about four weeks ago, and since that time has spent much of his time on the road. He is an Austrian.

The prisoner was taken to Fort Douglas yesterday afternoon by Marshal Mauss, who for his work will receive the usual \$50 reward.

BOND CASE IS APPEALED

Suit Against Local Bankers Goes to Circuit Court of Appeals on Writ of Error.

In the case of the United States Mining company against W. S. McCormick and M. H. Walker, which was tried at the last session of the United States court on an injunction bond given by the defendants and in which the court ordered judgment against McCormick and Walker for something over \$33,000, the defendants filed a bill of exceptions Monday, having appealed from the decision. The appeal was allowed and the bill filed. The mining company also excepted to the amount of the judgment, and an order was made that the bill of exceptions stand for both parties, on their respective writs of error to the United States circuit court of appeals. Mr. McCormick and Mr. Walker perfected their writ of error and an order was made granting the writ and fixing the bond at \$500.

INNOCENT MAN A PRISONER

Jack Smith Is Detained Two Weeks Charged With Having Stolen Four Tomatoes.

After two weeks in the city jail awaiting trial on the charge of having stolen four tomatoes of the value of \$1, Jack Smith was found not guilty yesterday afternoon in police court and discharged. The complaining witness, a fruit stand keeper on Commercial street, testified under the questioning of the city attorney, that the tomatoes were not worth more than five cents and that Smith had not stolen them, but witness insisted he would have taken them had he been given the chance.

New York and Philadelphia.

cannot be more pleasantly or conveniently reached than by the Grand Trunk-Long Valley double track route via Niagara Falls. Solid through trains of coaches and sleeping cars. Magnificent scenery.

For descriptive literature apply to W. S. Cookson, A. G. F. A., Grand Trunk Railway System, 135 Adams street, Chicago.

INCORPORATIONS.

The Walker Mining company filed articles of incorporation yesterday in the county clerk's office, placing the capital stock at \$20,000 in shares of 10 cents each, of which 250,000 are held as treasury stock. Officers are: Joseph R. Walker, president; George E. Benbow, vice president; Charles H. Post, secretary and treasurer, and these, with Joseph H. Beifuss and William H. Plach, form the board of directors. Twelve mining claims in Plumas county, California, are taken over in full payment for the capital stock.

The Gunnison Valley bank of Gunnison filed articles of incorporation with the secretary of state yesterday. The capital stock is placed at \$25,000, in shares of \$10 each, which is fully subscribed. Officers are: William H. Grubb, president; T. F. Kearnes, vice president; J. T. Jones, cashier. These, with G. B. Berglund, J. A. Beaumont, J. C. Mellor and James Christensen, form the board of directors.

Articles of incorporation of the Lucky Strike Mining company of Morgan were filed with the secretary of state yesterday. The company has a capitalization of \$20,000, in shares of 10 cents each. The officers are: Charles J. Toole, president; John Clayton, vice president; John H. Clayton, secretary and treasurer, and these, with J. A. Clayton and O. S. White, comprise the board of directors. The company takes over the Lucky Strike at a valuation of \$15,000 and the Lucky Strike No. 1 at \$5,000, both on the northern side of Round valley, two and one-half miles from Morgan City.

The Miller Leasing & Mining company of Colorado was admitted to enter the field in Utah yesterday by filing a copy of its articles of incorporation with the secretary of state. The company has a capitalization of \$20,000, in shares of \$1 each. Frank W. Taylor, David W. Brunton and David R. C. Brown are the directors and David Taylor is named as the Utah agent.

Another amendment to the articles of incorporation of the Western Pacific Real estate company of California was filed with the secretary of state yesterday, changing the number of directors from eleven to thirteen. A few days ago the capital stock was increased from \$50,000 to \$75,000.

The Woodruff family association, organized for the purpose of publishing the "Life of William Woodruff," filed articles of association with the county clerk yesterday. Besides publishing this book, the association will carry on a real estate and insurance business. Officers are: Willard Woodruff, Jr., president; Asahel H. Woodruff, vice president; O. C. Beebe, treasurer; Elias S. Woodruff, secretary. These are all trustees and the board is completed with George Robert Smith. The capital stock is \$20,000 in dollar shares, of which 6,000 are held in the treasury.

The B. B. Bitner association filed articles of incorporation with the county clerk yesterday with a capital stock of \$25,000 in shares of \$10 each, of which 2,500 shares are held in the treasury. The officers are: Milton O. Bitner, president; H. H. Bitner, vice president; Ardella B. Tibby, secretary and treasurer. These officers, with Anna E. Darr and Alice E. Castleton, comprise the board of directors. The company will carry on a real estate, insurance and investment business.

POISON FOUND IN THE STOMACHS OF KAISERS

All doubt as to the poison which killed Frank T. Kaiser and his wife, Minnie Kaiser, was dispelled yesterday when Herman Harms, state and city chemist, filed his report with County Attorney Job P. Lyon. In both stomachs and kidneys large quantities of arsenic were found. A quantity of morphine was found in both stomachs, but this was given by the attending physician to relieve the suffering.

In the statement of A. B. Elder in regard to the arsenic, printed some time ago, he said he had bought the arsenic and other drugs from the John M. Smyth company of Chicago. County Attorney Lyon has written to Chicago to learn if there is such a drug house.

Y. M. C. A. SECRETARY HERE.

Raymond O. Hanson, formerly prominently connected with the local Y. M. C. A., but for the last three years with Central Y. M. C. A. of Chicago, will spend today in the city. Mr. Hanson will leave tonight for Los Angeles, Cal., where he will join Mrs. Hanson and proceed to San Francisco, where he will assume the duties of secretary of the boys' section of the Y. M. C. A. of that city. Mr. Hanson while in the city will be the guest of C. R. Stock.

WANTS TO ERECT POWER STATION

Applicant for Water Rights Expects to Put Up Electric Plant.

Should the application of Milton S. Hamilton of Oakland, Cal., for a portion of the unappropriated water of Big Cottonwood creek, filed with the state engineer, be granted, an electric power plant for electric lighting and machinery propelling purposes will be erected just above the intake of the plant of the Utah Light & Railway company in Big Cottonwood canyon.

In the application Mr. Hamilton asks for ten cubic feet per second of the flow of Big Cottonwood creek, during high water time, which water will be stored in an immense reservoir, later to be drawn out for power purposes. The length of the diverting pipe line will be about 7,200 feet of wooden stave pipe and 6,000 feet of steel pipe. The power to be generated will be used in Salt Lake valley.

Albin T. Plum of Provo has made application for one-fourth of a cubic foot per second of the water of two isolated springs in Beaver county, situated about eleven miles northwest of Milford, for use in concentrating and milling ore also for use of miners for domestic purposes. Daniel B. Dunton of Paragonah, Utah, has made application for one-fourth of a cubic foot per second of the flow of Kane springs and Cottonwood springs in Iron county for irrigation of the Kane Springs ranch. The length of the diverting channel will be 2,000 feet.

REFUSED TO CONVICT HER

San Francisco Jury Finds Mrs. Laura McDonald, Who Killed Her Child, Not Guilty.

San Francisco, Sept. 20.—After having been locked up just one minute, shortly before noon today the jury in the case of Mrs. Laura McDonald, who shot and killed her two-year-old baby boy on May 20, returned a verdict of not guilty.

Mrs. McDonald was a waitress at the time she shot the child. She had been deserted by a man who, she claims, had promised to marry her; was almost penniless and too ill to work. She held the baby with a revolver and attempted to commit suicide during a fit of despondency. Her natural plight aroused the sympathies of the officials of the Waitresses' union, who established a fund to assist her during the long illness in the hospital and to engage attorneys to defend her at her trial for murder, which ended today.

Although Miss Maud Younger, president of the waitresses' organization, has maintained that Mrs. McDonald is not insane, and has not been since the shooting, most of the witnesses, including policeman and hospital attendants, testified that she was not responsible at the time of the tragedy.

HIGH SCHOOL NOTES.

Professor Pete Christensen called a meeting of the band yesterday afternoon for the purpose of discussing the celebration of the coming of President Taft. The boys will be on duty from about 12:30 to 5 p. m., both Friday and Saturday afternoons, and will alternate in the playing of selections with the Fort Douglas band. A movement toward the reorganization of the High School congress.

A meeting of the Red and Black will be out Thursday, instead of Wednesday as previously announced.

A meeting of the entire battalion of cadets will be held Wednesday afternoon, when particular attention will be given in honor of the president will be discussed.

Le Roy Worthman, first lieutenant of Company C, returned to school yesterday after a month's trip to Camp Perry, where he has been representing the National Guard of Utah as a marksman.

An advanced class will be formed by Miss Elsie J. Ward sometime during the coming week for those students who wish to continue the study of algebra and trigonometry. Professor J. H. Harwood will open classes for beginners in freehand drawing and clay modeling next Monday.

"Royal" State Bread Depot
Open every morning. Entrance on Third South. Good bread very cheap.

If it is to be done well, Century Printing Co. must do it. 55-57 Post-office Place.

UNIVERSITY NOTES.

At the close of the registration hour Monday afternoon the registrar's books showed a total of 60 students, which is about 100 less than the total registration of last year. It is expected that by the mid-year the total registration will have reached 1,000 students. The regular class work began in all courses promptly at 8:30 o'clock Monday. The regular hour registration periods were conducted in all classes, and the regular laboratory periods in all laboratory sections.

The registration in the medical school the present year greatly exceeds all expectations of the medical faculty. At the regular laboratory period Monday thirty-three freshmen and thirty sophomore students reported for work, and it is expected that by the beginning of October the registration in this department will be eighty students. A number of students are taking the first-year course in anatomy for the purpose of physical education training.

The attendance in the law department, while not as heavy as was expected, greatly exceeds the registration of last year.

Professor George Corey will be absent from school for the next ten days on leave of absence while attending the meeting of the state and local taxation convention in Louisville, Kentucky.

All Who Would Enjoy

good health, with its blessings, must understand, quite clearly, that it involves the question of right living with all the term implies. With proper knowledge of what is best, each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to living aright. Then the use of medicines may be dispensed with to advantage, but under ordinary conditions in many instances a simple, wholesome remedy may be invaluable if taken at the proper time and the California Fig Syrup Co. holds that it is alike important to present the subject truthfully and to supply the one perfect laxative to those desiring it.

Consequently, the Company's Syrup of Figs and Elixir of Senna gives general satisfaction. To get its beneficial effects buy the genuine, manufactured by the California Fig Syrup Co. only, and for sale by all leading druggists.

TAKES ACID FOR MEDICINE

Mrs. Caroline E. Jacobs Makes Mistake Which Very Nearly Cost Her Life.

Mrs. Caroline E. Jacobs of 88 Third avenue, mother of Miss Emma Jacobs, the writer, who died a week ago of typhoid fever, took a small quantity of carbolic acid, mistaking it for medicine, yesterday afternoon. For several hours two doctors despaired of saving her, but late last night she was pronounced out of danger by Dr. W. F. Beer and Dr. S. C. Beldry.

Mrs. Jacobs had been taking a prescription. At noon yesterday she became ill and took from her medicine chest a bottle of carbolic acid, used as a disinfectant since the visit of typhoid to the Jacobs home. In her haste she mistook it for medicine. She had swallowed but a small amount when she learned her mistake.

NEGRESS' SHOT NOT FATAL.

Injured Negro Recovering Rapidly From Bullet Wound.

Charles Martin, a negro, who was shot in the hip Sunday by Mrs. Lizzie Voss at the Douglas club on Franklin avenue, is recovering rapidly at St. Mark's hospital.

Mrs. Voss, who is the widow of H. Voss, a negro politician, who was shot and killed by A. T. Day two years ago, was released yesterday morning on \$1,000 bail.

The shooting is said to have resulted from an insulting remark by Martin to Mrs. Voss. Mrs. Ed Williams, another negress, who was with Mrs. Voss, also drew a pistol, saying she too had been insulted, but was prevented shooting.

FIVE BECOME CITIZENS.

There are five new citizens of the United States as a result of the naturalization hearing before Judge C. W. Morse yesterday. Seven applications were heard, one was dismissed because there has been no response for months and the other was continued. The new citizens are: John D. Johnson, Sweden; Conrad Deck, Switzerland; Rudolph Schmidt, Austria; John D. Purdy, Great Britain; and Philip Tadjie, Germany. These naturalization cases will be brought before Judge T. D. Lewis of the district court on Wednesday, all continued cases.

PREDICTS RISE IN COST OF BUILDING MATERIAL

Edward M. Ashton, secretary and treasurer of the Ashton-Jenkins company, who returned yesterday from a business trip to the Pacific northwest, reports that the trade will soon be compelled to pay higher prices for building material.

"A shortage of cars is not the only reason for the increased price of lumber," said Mr. Ashton. "Considerable building is being done on the coast and more lumber is being used. With a lively demand in Utah, this means an increased cost."

"In Portland I was surprised to learn that in spite of Portland's great lead in population Salt Lake's bank clearings are equal."

MARRIAGE LICENSES.

Joseph M. Hanson, Salt Lake; Mrs. Carrie B. Neer, Leeper, Pa.
Andrew A. Malstrom, Midvale; Mary M. West, Ogden.
Joseph H. Gordon, Murray; Katie A. Simper, Murray.
Frederick Hansen, Salt Lake; Maud H. Westwood, Salt Lake.
R. A. Bowman, Weiser, Ida.; Jennie E. Wimmer, Salt Lake.
P. S. Mayo, Salt Lake; Edie Hower, Salt Lake.

THE JOHN BOLLMAN CO., Manufacturers, San Francisco

New Drugless Method Is a Great Boon to Weak Women

The dread of drugs, operations and other disagreeable means used so commonly in the treatment of disease, has been the means of causing hundreds of women to decide to suffer in silence rather than submit to the things that are distasteful to them.

Such a course is not at all natural. A person who suffers should seek relief, even though the cure is, for the time, not exactly agreeable. A scientific discovery of comparatively recent date, however, removes all necessity for submitting to either drugs or instruments in the cure of the majority of diseases.

Chiropractic is a natural cure, and when once the principles are explained to you, the effectiveness of the treatments will be at once apparent. Without taking medicine of any kind, without submitting to any sort of an operation, without interference in any way with your business or pleasure, except the time you spend here, and without inconvenience of any kind, you may be cured of any nervous disorder, stomach, liver or kidney trouble, paralysis, rheumatism, female troubles or any similar disorders.

Now if you are a sufferer you should certainly be willing to put a few minutes of your time against the same amount of Mrs. Pickard's time for a free examination and consultation. It may mean the prolonging of your life, and if you take the treatments it will certainly result in the removal of the cause of your suffering.

Office Hours: 9 to 12, and 2 to 5, daily.

Your Nerves

Your nerves must be fed with pure, rich blood, or there will be trouble. Poorly fed nerves are weak nerves; and weak nerves mean nervousness, neuralgia, headaches, debility. Weak nerves need good food, fresh air, and Ayer's non-alcoholic Sarsaparilla. Make no mistake about this.

Ask your doctor if alcoholic stimulants are not often very disastrous when given to nervous people. He will tell you why. Lowell, Mass.
